About your TOTAL CONTROL

Your manual is divided into two parts: set-up instructions and device codes. You will need your manual to set up your new TOTAL CONTROL so please be sure to keep it.

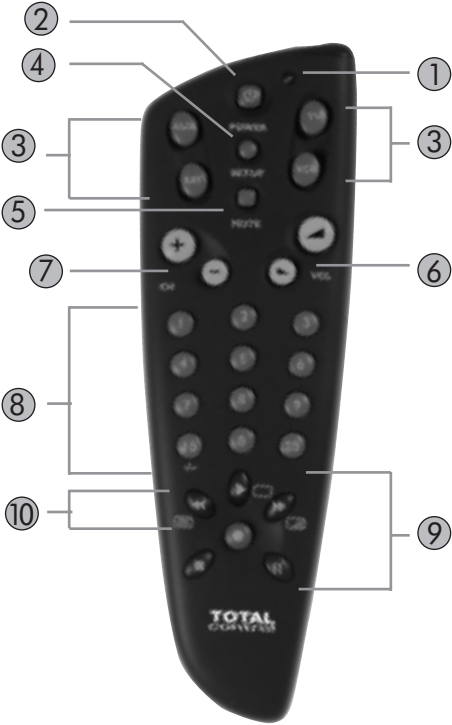

Your TOTAL CONTROL Package contains: Your TOTAL CONTROL Remote and your TOTAL CONTROL Instruction Manual.

Your TOTAL CONTROL can operate four devices: a Television, a Video Recorder, a Satellite Receiver and a second Television, Video or Satellite Receiver. Your TOTAL CONTROL can also operate Cable Converters.

Your TOTAL CONTROL needs four new AAA/LR03 alkaline batteries.

Features and Functions

The picture below and the chart following describe the various features of your TOTAL CONTROL.

Key	Function
1	LED The LED (Light Emitting Diode) flashes red to show the remote is working.
2	Power The Power key controls the same function as on your original remote.
3	Device Keys The TV, VCR, SAT and AUX keys select the device to be controlled. For example pressing the TV key allows the remote to control the functions of your Television, after pressing VCR you can operate your Video Cassette Recorder and the SAT key operates your Satellite Receiver or Cable Converter. The AUX key operates a second Television, Video Recorder or Satellite Receiver.

Key	Function
4	SET-UP key The SET-UP key is used to set up your TOTAL CONTROL and to access special functions.
5	Mute The Mute key operates the same function it did on your original remote.
6 7	Volume, Programme The Volume and Programme keys control the two most used functions of your Television and Satellite Receiver. They operate just as those on your original remote.
8	Number Keys The Number keys (0-9, 10, 20) provide functions just like your original remote, such as direct access programme selection. If your original remote uses one/two digit input switching (-/-- symbol), this function can be obtained by pressing the -/-- key, which is the same as the 10 key.
9	Video Recorder Keys After pressing the VCR key, the Video Recorder keys operate the functions of your Video Recorder. To prevent accidental recording, the Record key must be pressed twice to start recording.

The Text keys are used to access the teletext functions of your Television. Of course, your Television must be teletext capable. For an explanation of the teletext symbols, please refer to page 12 of this manual. For a detailed explanation on how teletext works, please refer to the manual of your Television set.

With the TOTAL CONTROL, there are two ways to use the sleeptimer. If your TV or Satellite came with this feature built in, follow the instructions “Device Sleeptimer” below. If your device did not come with this feature, follow the instructions “TOTAL CONTROL Sleeptimer”

Device Sleeptimer

If your TV or Satellite has a “Sleeptimer” function built in, you can access this function with your TOTAL CONTROL remote. To do so:

- 1 Make sure your TV (or Satellite) is switched on.
- 2  or  Press the device key (TV or SAT).
- 3   Point the TOTAL CONTROL at your TV (or Satellite) and press and release **Set-Up** then press **POWER**. You should see the Sleeptimer activate on your TV screen.
To increase the timer, simply press **Set-Up** and **POWER** until the timer gets to the desired time.

To deactivate the Sleeptimer, repeat steps 1-3 above. During step 3, continue pressing Set-Up then Power until the timer indicates zero minutes.

Note: Remember, your device must have its own Sleeptimer function in order for the above instructions to operate. If your device does not have its own Sleeptimer, follow the instructions on the following page.

The TOTAL CONTROL Sleeptimer

Your TOTAL CONTROL remote comes with an internal Sleeptimer function for those devices (TV or Satellite) which did not come standard with this function. To use the TOTAL CONTROL Sleeptimer:

It is possible to set the timer for 15, 30, 45 or 60 minutes. To do this, first make sure your TV (or Satellite) is switched on. Then,

-  Press and release **Set-Up** then press **POWER**. The red light will blink once which indicates the timer is set for 15 minutes.

-  (:15) To increase the timer, simply press **POWER** again (this must be done within 5 seconds). The light will blink twice indicating the timer is set for 30 minutes (2x 15). You can press **POWER** a maximum of four times which will set the timer to 60 minutes.
-  (:30)
-  (:45)
-  (:60)

Once you have set the timer to the desired time, set your TOTAL CONTROL remote down, pointing it at your device. When the programmed amount of time has elapsed, the TOTAL CONTROL will send the command for Power, hence turning off your device.

Notes:

- The red light on the TOTAL CONTROL will blink every 15 seconds indicating that the remote is in Sleeptimer mode.
- To deactivate the Sleeptimer, simply press any key on the TOTAL CONTROL remote.
- Also, it is only necessary to follow steps 1 and 2 above one time. For subsequent use of the Sleeptimer, simply begin with "Setting the Sleeptimer".
